### MAY MAKE TEMPLE EIGHT STORIES HIGH

What will be equal to an eight story building will be erected by the Masonic lodge for its permanent temple if the plans which have been drawn by Trust & Frost are finally accepted by the building committee. Although the new building as planned will be but four stories in height, each floor will be in reality two stories, as each will be a lodge room 20 feet high with a mezzanine floor extending around three sides of it. This will make the building more than 160 feet in height or on a level with the eight story Anson Mills building. As soon as these plans are accepted the bids will be asked for by the architects.

### ON MURDER CHARGE; SET FREE BY JURY

Roswell, N. M., May 17.—The grand jury failed to bring a bill against Clarence Hobbs, accused of the murder of Louis Rodriguez, claiming it would be impossible to find a jury in the county who would convict the accused, on account of the mitigating circumstances in the case. The dead man was said to have committed a serious offense on the person of the sister of the accused man, who was a child and in a crippled condition. Hobbs met Rodriguez some time after the alleged crime and killed him. A petition was presented to the grand jury, signed by a large number of people, asking that the case be dropped.
